WORK EXPERIENCE

AUGUST 2021 - PRESENT

Adjunct Professor, Computer Science

University of San Francisco

- Conceptualizes, plans, and creates course assignments for introductory level Computer Science courses
- Designs animated lecture slides that thoroughly illustrate core programming concepts
- Optimizes and streamlines course materials based on student feedback, improving evaluation scores
- Delivers lectures for 60+ undergraduates and leads classroom activities, offering one-on-one assistance

MARCH 2020 - NOVEMBER 2020

Graphic Design Intern

University of California Student Association

- Collaborated with UCSA's Census and Voting Outreach teams by creating informative and engaging social media graphic content to encourage UC students to fill out the 2020 census and vote in the 2020 election

JANUARY 2020 - MAY 2020

Graphic Design Intern

VivendasLeón

- Conceptualized and created graphic aspects of advertising campaigns, graphic content for social media in both English and Spanish, and VivendasLeón's annual report following existing brand guidelines and utilizing existing photography

AUGUST 2019 - MAY 2020

Design Tutor & Technology Assistant

University of San Francisco

- Assisted undergraduate students one-on-one with Design coursework involving HTML, CSS, and JavaScript and provided general technical support

EDUCATION

AUGUST 2016 - MAY 2020

The University of San Francisco

Bachelor of Arts in Design

Minor in Computer Science

Thesis Project

programmable_poetry | programmablepoetry.com

Interactive poetry-writing experience that integrates photography and computational generation to explore human-machine collaboration and connection through creative writing
